However, getting books on Amazon is a challenge for people living in some parts of the world. This guide was written to solve that challenge, so you can get books on Amazon, no matter where you are in the world.

How To Download The Kindle/Audible App (iOS)

Being an American company, it is no surprise that several apps are reserved for the US residents.

How do you get around this limitation?

The simple solution lies in creating a new Apple ID and assigning 'US' as the country.

ACTION STEPS

First of all, read Steps 2-4 and then create a new Apple ID using this walkthrough: <http://www.imore.com/how-create-new-apple-id-your-iphone-or-ipad>

Ensure you use US as your country as well as a correct US address. The most important factor here is that Address, City, State, Zip, and Phone that you enter have to match up.

Entering false information is certainly unethical, so this tutorial is only for those who live inside McDonalds.

You can find McDonald's address with a matching phone number by using [Google Maps](#)

Click on "Search Maps" and pick an address.

Remember, this is for people who live inside McDonalds or even Starbucks.

At some point, you'll be asked to choose a payment method. Select 'None' for now

Complete your email verification

You can then try to access the Amazon Kindle app again through this link:

How To Read Kindle Books on PC

You can also read Kindle books without installing any of the apps.

This can be done by accessing your Kindle Book Collection via the [Kindle Cloud Reader](#).

Access it here: <https://read.amazon.com>
